

UNPACKING

THE NATIONAL QUALITY STANDARDS:

QUALITY AREA 1

How can educators create meaningful and impactful documentation?

Multiple Perspectives

Document learning from multiple perspectives, including children, educators and families.

Diverse Formats

Select formats that best capture the richness & complexity of children's learning in authentic and engaging ways such as photographs, videos, audio recordings, and written observations.

Reflective Practice

Consider the context, connections and implications of children's actions to deepen understanding and inform future planning.

Visible Learning Journeys

Use documentation panels, portfolios or digital platforms to showcase children's work, experiences and achievements in meaningful & accessible ways.

Collaborative Reflection

Invite feedback, insights and perspectives from all stakeholders to enrich understanding, promote dialogue and strengthen partnerships.

Responsive Planning

Tailor learning experiences and environments to meet the diverse needs and preferences of all children.
