

“Supporting Children in ECEC”

WA Grant Made Easier

ECT Salary Grant Example

Project Example

ECT Support for Pre-kindy “Fun with Us” Program

We are seeking funding for our Early Childhood Teacher (ECT) for a specific time period to support the delivery of our innovative pre- kindy program.

The ECT will provide targeted learning and development opportunities for children, with a particular focus on school readiness, communication, social skills, wellbeing and participation.

The ECT will continue to support educators within our service to provide intentional support to children who may experience barriers to participation or require additional support with their learning and development.

Funding requested:

ECT salary: \$XX,XXX (can be up to \$200k depending on size of service)

Period: XX weeks/months

Hours: XX hours per week

Expected outcomes: (can be a combination of these outcomes)

- Improved participation in the pre-kindy program
- Increased support for children's learning and development
- Improved communication and social skills
- Greater confidence and independence
- Improved preparation and transition to school

The position will be time limited to the grant project period, with the funding directly supporting the activities and outcomes described in this application.

Project Budget (An example of a project budget)

Item	Calculation	Amount
ECT salary	\$45 per hour X 30 hours per week for 30 weeks	\$40,500
On-cost superannuation	as applicable	\$5,000
Total requested		\$41,000

ECT Registration Number	1234567
-------------------------	---------

Funding our ECT position will enable our service to continue to deliver targeted pre-kindergarten learning and development activities that directly support children's participation, school readiness and transition to primary school.
